# WHERE IT ALL BEGAN

Beettan is a sunless tanning company established by entrepreneur Michelle Peth in 2014. Michelle's younger sister, a redhead with fair, sensitive skin, had experienced some scary skin cancer issues at a young age, and Michelle set out to fulfill a mission:

"To help people acquire flawless, sun-kissed color, protect against permanent sun damage, and prevent premature aging—all through a natural process."

Beettan headquarters is based out of Savannah, Georgia and we've proudly partnered with over 100 medical spas, salons and boutique owners in more than 100 cities.
